Education

Manipal Institute of Technology — Manipal, Karnataka
B.Tech in Information Technology — CGPA: 8.88/10 — *2024 – 2028*

CBSE (Class XII)
Senior Secondary Education — 91.4% — *2024*

ICSE (Class X)
Secondary Education — 93% — *2022*

Experience

Full Stack Developer Intern — Manipal, Karnataka
ColCord — *Oct 2025 – Jan 2026*

- Built responsive React.js components for an ed-tech SaaS platform, ensuring UI consistency across devices.
- Designed and developed the Recent Activities feature from scratch with role-based functionality for students, instructors, and administrators.
- Integrated Supabase for authentication and PostgreSQL database operations.
- Resolved routing and re-routing issues by implementing protected routes and improving application navigation.

Projects

Video Hosting Backend | *Node.js, Express.js, MongoDB, Mongoose, JWT* | GitHub

- Built a scalable video hosting backend with Mongoose schemas to model users, videos, and their relationships.
- Implemented secure user authentication and authorization using JWT and bcrypt.
- Developed 35+ RESTful APIs for video upload, user management, subscriptions, likes, comments, and playlists.
- Built a video and thumbnail upload pipeline using Multer for file handling and Cloudinary for cloud storage.

DocSentinel – Secure Document Management System | *React.js, FastAPI, Python, PostgreSQL* | GitHub

- Built a secure document management platform with RBAC, AES-GCM encryption, RSA key protection, and SHA-256 integrity verification.
- Implemented digital signatures, secure document sharing, expiration, and revocation mechanisms.
- Developed a 6-factor adaptive risk engine integrating risk-based access control, step-up authentication, and anomaly detection.
- Designed audit logging and an auditor dashboard for security monitoring and explainable risk decisions.

Food Delivery Platform | *React.js, Node.js, Express.js, MySQL, Tailwind CSS* | GitHub

- Developed 60+ RESTful APIs powering customers, restaurant owners, delivery partners, and admin workflows with JWT-based authentication and role-based authorization.
- Implemented the complete order lifecycle - restaurant onboarding, menu management, cart, checkout, payments, and tracking.
- Developed analytics dashboards for revenue, orders, and earnings using SQL aggregation queries and Recharts.
- Designed responsive user interfaces with React.js and Tailwind CSS.

Technical Skills

Languages: Java, Python, C, JavaScript

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

AI/LLM: LLMs, RAG, LangChain, Embeddings, Vector Databases

Databases: MongoDB, MySQL, PostgreSQL

Data Science: NumPy, Pandas, Matplotlib, Seaborn

Developer Tools: Git, GitHub, VS Code, Postman
